

Meeting Details

Date: 24/09/2021

Time: 2-3 pm

Location: Microsoft Teams

Type of Meeting: Project Team Meeting

Note Taker: Ridho

Members Present: Mohammad, Oudom, Siyuan, Ridho

Apologies: Augustus

Notes

- We discussed the need for multiple meetings throughout the week as it is due in one week
- Ridho will be doing auth_register_v1, and clear_v1 and he plans to do it tonight and tomorrow so that other team members are able to conduct their sections
- Oudom will be doing auth_login_v1, channels_create_v1
- Oudom will do channels_create_v1 as soon as Ridho completes his sections so that others can do the features for channels
- Ensure we make tests first before doing the implementation
- Mohammad will do channels_list_v1, channels_listall_v1
- Mohammad suggested that we watch past lectures so you have some extra time for next week to complete the project
- Siyuan will do channels_details_v1, channel_join_v1
- Augustus will do channels_message_v1 and channels_invite_v1
- No one will approve their own merge request and only the owner of the merge request will conduct the merge
- Make your own branch, do not edit on the master branch and then merge
- Add your assumptions to assumptions.md
- Plan to have a meeting every two days to update team members on what is happening
